

OL 770VIS LED Total Flux Measurement System

The OL 770VIS LED Total Flux Measurement System precisely measures the power (flux) of various lamp and light sources in accordance with CIE and NIST recommendations. It's comprised of the OL IS-1800H, an 18-inch sphere that opens horizontally instead of vertically, and the OL 770VIS, a high-speed spectroradiometer with a wavelength range of 380 - 780 nm and a spectral resolution of 0.40 nm.
